

Night System

 KICO

— A LONG HISTORY OF PASSION AND FURNITURE . In the early 60's Giuseppe Arangiario begins the adventure. Soon he realizes that Made in Italy is a fundamental value and begins the export of his products: in a few years he becomes one of the biggest exporters of furniture, so that an American multinational company believe on his dream. The same philosophy and dedication to work keeps on living through KICO, founded years later by the daughter of Giuseppe, Domenica, and her husband Quinto and which today sees the entry of the third generation. Made in Italy and quality of its products represent the two pillars on which the company creates value for its customers.

— NE LONGUE HISTOIRE DE PASSION ET DE MOBILIER. Au début des années 1960, Giuseppe Arangiario se lance dans l'aventure. Il se rend vite compte que le Made in Italy est une valeur fondamentale et commence à exporter ses créations : en quelques années il devient l'un des principaux exportateurs de meubles, au point d'amener une multinationale américaine à croire en lui. La même philosophie et le même dévouement au travail vivent à travers KICO, fondée des années plus tard par la fille de Giuseppe, Domenica, et son mari Quinto et qui voit aujourd'hui l'entrée de la troisième génération. Le Made in Italy et la qualité de ses produits représentent les deux piliers sur lesquels l'entreprise crée de la valeur pour ses clients.

Una lunga storia di passione e mobili

— UNA LUNGA STORIA DI PASSIONE E MOBILI . Nei primi anni '60 Giuseppe Arangiario comincia l'avventura. Presto si accorge che il Made in Italy è un valore fondamentale ed inizia l'esportazione delle sue creazioni: in pochi anni diventa uno dei maggiori esportatori di mobili, tanto da indurre una multinazionale americana a credere in lui. La stessa filosofia e dedizione al lavoro vive attraverso la KICO, fondata anni dopo dalla figlia di Giuseppe, Domenica, e da suo marito Quinto e che vede, oggi, l'ingresso della terza generazione. Il Made in Italy e la qualità dei suoi prodotti rappresentano i due pilastri su cui l'azienda crea valore per i propri clienti.

— UNA LARGA HISTORIA DE PASIÓN Y MUEBLES. A principios de la década de 1960, Giuseppe Arangiario inició la aventura. Pronto se da cuenta de que el Made in Italy es un valor fundamental y comienza a exportar sus creaciones: en pocos años se convierte en uno de los principales exportadores de muebles, tanto que induce a una multinacional estadounidense a creer en él. La misma filosofía y dedicación al trabajo vive a través de KICO, fundada años después por la hija de Giuseppe, Domenica, y su marido Quinto y que hoy ve la entrada de la tercera generación. Made in Italy y la calidad de sus productos representan los dos pilares sobre los que la empresa crea valor para sus clientes.

Unità produttiva di Casoli di Atri

Produzione, ispirazione e tecnologia

— KICO HAS A PRODUCTION CENTER OF 18,000 SQUARE METERS OF SURFACE. The ultra-modern and highly efficient production plant, allows a just-in-time production of a wide range programs for the living and night areas. The technology of the production plants, using the latest generation machinery, allows to produce a large number of models in a competitive way for any design and functional need.

— KICO DISPOSE D'UN CENTRE DE PRODUCTION DE 18 000 MÈTRES CARRÉS DE SURFACE. Les systèmes ultramodernes et hautement efficaces produisent en flux tendu une large gamme de programmes pour les espaces de vie et de couchage. La technologie des usines de production, utilisant des machines de dernière génération, permet de produire un grand nombre de modèles de manière compétitive pour tout besoin esthétique et fonctionnel.

— KICO HA UN POLO PRODUTTIVO DI 18.000 METRI QUADRATI DI SUPERFICIE. Gli impianti, modernissimi e ad alta efficienza, producono just-in-time una vasta gamma di programmi per il living e la zona notte. La tecnologia degli stabilimenti di produzione, attraverso macchinari di ultima generazione, permette di realizzare in modo competitivo un numero elevato di modelli per qualsiasi esigenza estetica e funzionale.

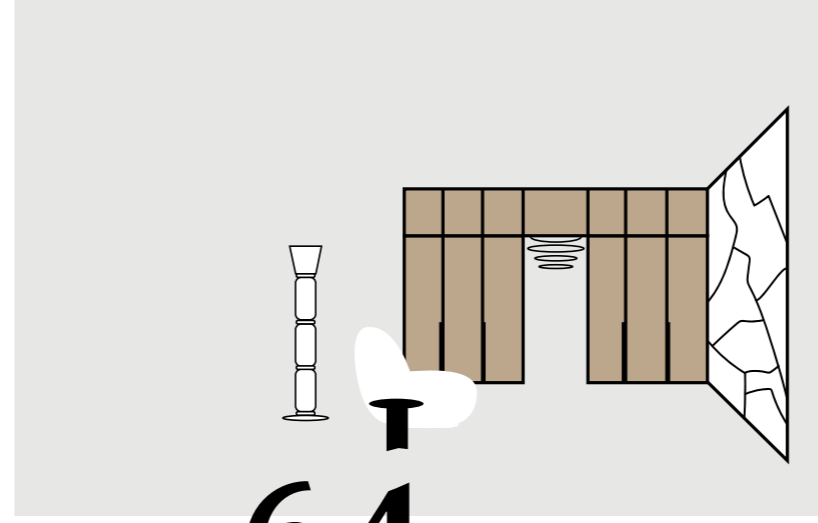

— KICO CUENTA CON UN CENTRO DE PRODUCCIÓN DE 18.000 METROS CUADRADOS DE SUPERFICIE. Los sistemas ultramodernos y altamente eficientes producen justo a tiempo una amplia gama de programas para las áreas de estar y de dormir. La tecnología de las plantas de producción, utilizando maquinaria de última generación, permite producir un gran número de modelos de forma competitiva para cualquier necesidad estética y funcional.

Afternoon in Formentera

18th June / 03:22 pm

— All'interno di uno spazio moderno e raffinato, in cui la natura accompagna lo sviluppo architettonico in ogni suo passo, l'arredo proposto è un mix di eleganza, semplicità, linee decise e nuance direttamente connesse ai toni caldi e vivi della terra. L'alternanza di pieni e vuoti, di superfici materiche e trasparenti, disegnano soluzioni funzionali e dal design accattivante espressioni dirette di un lifestyle moderno e dinamico consapevole, allo stesso tempo, di un forte legame con la tradizione.

— Inside a modern and refined space, where nature accompanies the architectural development in every single step, the proposed furniture is a mix of elegance, simplicity, strong lines and nuances directly connected to the warm and lively tones of the earth. The alternation of solids and voids, material and transparent surfaces, draw functional solutions with an attractive design, direct expressions of a modern and dynamic lifestyle, at the same time, of a strong link with tradition.

— À l'intérieur d'un espace moderne et épuré, où la nature accompagne l'évolution architecturale à chaque étape, la décoration d'intérieur proposée est un mélange d'élégance, de simplicité, de lignes fortes et de nuances directement liées aux tons chauds et vivants de la terre. L'alternance de pleins et de vides, de surfaces matérielles et transparentes, conçoivent des solutions fonctionnelles au design attrayant, expressions directes d'un style de vie moderne et dynamique conscient, en même temps, d'un fort lien avec la tradition.

— Dentro de un espacio moderno y refinado, donde la naturaleza acompaña el desarrollo arquitectónico en cada paso, el mobiliario propuesto es una mezcla de elegancia, sencillez, líneas fuertes y matices directamente conectados a los tonos cálidos y vivos de la tierra. La alternancia de sólidos y vacíos, de materiales y superficies transparentes, diseñan soluciones funcionales con un design atractivo, expresiones directas de un estilo de vida moderno y dinámico consciente, al mismo tiempo, de un fuerte vínculo con la tradición.

Escape in Bali

26th May / 04:16 pm

— La volumetria sobria di un arredo in grado di completare con coerenza estetica e spontaneità uno spazio architettonico a pianta libera. Ambienti che, liberati della pesantezza di separazioni interne, dialogano intimamente con lo spazio esterno attraverso leggeri listelli in legno dai quali gli arredi sembrano nascere ed articolarsi diventando essi stessi parte intrinseca dello spazio casa. Portali ed aperture come segni grafici di un racconto organico in continuo mutamento.

— The sober volume of a piece of furniture capable of completing a free-plan architectural space with aesthetic coherence and spontaneity. Environments which, freed from the heaviness of internal separations, interact intimately with the external space through light wooden slats from which the furnishings seem to be born and articulate themselves becoming an intrinsic part of the home space. Portals and openings as graphic signs of a constantly changing organic story.

— Le volume sobre d'un meuble capable de compléter un espace architectural en plan libre avec cohérence esthétique et spontanéité. Des environnements qui, libérés de la lourdeur des séparations internes, interagissent intimement avec l'espace extérieur à travers des lamelles en bois légères à partir desquelles les meubles semblent surgir et s'articuler, devenant eux-mêmes une partie intrinsèque de l'espace de la maison. Portails et ouvertures comme signes graphiques d'une histoire organique en constante évolution.

— El volumen sobrio de un mueble capaz de completar un espacio arquitectónico de planta libre con coherencia estética y espontaneidad. Ambientes que, liberados de la pesadez de las separaciones internas, interactúan íntimamente con el espacio exterior a través de ligeras lamas de madera de las que el mobiliario parece surgir y articularse, convirtiéndose ellos mismos en parte intrínseca del espacio del hogar. Portales y aperturas como signos gráficos de una historia orgánica en constante cambio.

Wake up in Paris

23rd November / 01:53 pm

— Stucchi di natura neoclassica convivono con linee rette funzionali ed eleganti, che razionalizzano lo spazio e conferiscono una contemporaneità ambivalente all'ambiente. Il dialogo continuo tra sfarzo e minimalismo, calore e freddezza, ricchezza di particolari e funzionalità essenziale creano un luogo in cui la connessione emotiva è dietro ogni angolo.

— Neoclassic stuccoes coexist with elegant and functional straight lines, rationalizing space and making the environment contemporary. Continuous connections between splendor and minimalism, warmth and coldness, details and functionality, create a situation in which the emotion is behind every corner.

— Les stucs de nature néoclassique coexistent avec des lignes droites fonctionnelles et élégantes qui rationalisent l'espace et donnent une contemporanéité ambivalente à l'espace. Le dialogue permanent entre le glamour et le minimalisme, la chaleur et la fraîcheur, la richesse des détails et les fonctionnalités essentielles créent un lieu où la connexion émotionnel est derrière chaque coin.

— Estucos de naturaleza neoclásica coexisten con líneas rectas funcionales y elegantes, que racionalizan el espacio y dan ambivalencia y contemporaneidad al entorno. El diálogo continuo entre el brillo y minimalismo, calor y frialdad, la riqueza de detalles y la funcionalidad esencial crean un lugar donde la conexión emocional está en cada esquina.

Rational Shanghai

8th September / 01:53 pm

— Tonalità scure, campiture piene e tagli architettonici convivono in un ambiente casa che appare in bilico tra un'ampia vallata ed uno skyline deciso e rigoroso, casa come spazio soglia, in grado di accogliere mantenendo le distanze, per scoprirsi poco a poco. La solidità degli spazi e degli arredi sembra come destrutturata dalle larghe vetrate e dagli ampi lucernari che permettono alla luce di animare arredi essenziali in cui le scansioni verticali delle armadiature battenti si contrappongono alle linee orizzontali delle soluzioni scorrevoli e coplanari esplorando le infinite possibilità estetiche dei diversi sistemi di apertura e materiali disponibili.

— Dark shades, full backgrounds and architectural cuts coexist in a home environment that appears poised between a wide valley and a decisive and rigorous skyline, a home as a threshold space, able to welcome while maintaining distance, to discover itself little by little. The solidity of the spaces and furnishings seems unstructured by the large windows and large skylights that allow light to animate essential furnishings in which the vertical scans of the hinged wardrobes contrast with the horizontal lines of the sliding and coplanar solutions, exploring the infinite aesthetic possibilities of the different opening systems and available materials.

— Des teintes foncées, des espaces pleins et des coupes architecturales cohabitent dans un espace domestique qui apparaît en équilibre entre une large vallée et une ligne d'horizon décisive et rigoureuse, une maison comme un espace de séparation, capable d'accueillir tout en tenant la distance, de se découvrir peu à peu. La solidité des espaces et des meubles semble déstructurée par les grandes fenêtres et par les grandes lucarnes qui permettent à la lumière d'animer des meubles essentiels dans lesquels la verticalité des armoires avec portes battantes s'oppose à l'horizontalité des solutions coulissantes et coplanaires, en explorant les possibilités esthétiques infinies des différents systèmes d'ouverture et matériaux disponibles.

— Tonos oscuros, fondos llenos y cortes arquitectónicos conviven en un ambiente hogareño que aparece entre un amplio valle y un horizonte decidido y riguroso, un hogar como espacio, capaz de acoger manteniendo la distancia, de descubrirse poco a poco. La solidez de los espacios y el mobiliario parece desestructurada por los grandes ventanales y grandes lucernarios que permiten que la luz anime muebles esenciales en los que los escaneos verticales de los armarios abatibles contrastan con las líneas horizontales de las soluciones correderas y coplanares, explorando las infinitas posibilidades estéticas de los diferentes sistemas de apertura y materiales disponibles.

QUALITÀ

— L'azienda KICO si avvale delle CERTIFICAZIONE ISO 9001:2015 per la progettazione e produzione di mobili per la zona Giorno, la zona Notte e i complementi. La norma di riferimento è la UNI EN ISO 9001. Il Sistema di Gestione Qualità sovrintende ogni processo aziendale che influenza la qualità, ad esempio:

- progettazione e sviluppo del prodotto,
- gestione degli ordini,
- selezione, valutazione e controllo dei fornitori,
- produzione e manutenzione,
- controllo dei materiali e dei prodotti finiti nelle fasi di ingresso, di produzione e di spedizione,
- esecuzione di prove di laboratorio,
- gestione della documentazione,
- gestione di reclami.

Attraverso l'accurata gestione dei suddetti processi, perseguiamo il nostro principale obiettivo: la piena soddisfazione dei nostri clienti.

QUALITY

— The KICO company uses the ISO 9001: 2015 CERTIFICATION for the design and production of furniture for the Day area, the Night area and accessories. The reference standard is UNI EN ISO 9001. A quality management system is nothing more than the best "modus operandi" to try to guarantee quality throughout the journey, starting from the definition of the customer's needs up to their satisfaction, by going through the various company activities (the so-called PDCA Cycle). Therefore the Quality Management System oversees every business process that influences quality, for example:

- product design and development,
- order management,
- selezione, valutazione e controllo dei fornitori,
- production and maintenance,
- control of materials and finished products in the entry, production and shipping phases,
- carrying out laboratory tests,
- documentation management,
- complaints management.

Through the careful management of the above processes, we pursue our main objective: the full satisfaction of our customers.

AMBIENTE

— FSC è una certificazione di prodotto che garantisce la provenienza della materia prima cellulosa da foreste certificate, gestite quindi in modo sostenibile. Dal 2001 FSC ha avuto un notevolissimo sviluppo. Ormai è diffuso in parecchi mercati e per molte aziende è diventato di fatto obbligatorio ottenerlo e mantenerlo nel tempo (la certificazione dura 5 anni, con controlli annuali). I motivi che spingono l'azienda ad intraprendere questo percorso progettuale sono quelli di garantire e dimostrare un uso corretto dei prodotti di origine forestale, al fine di aumentare l'area di foreste globali gestite in modo sostenibile. La certificazione rilasciata da un organismo indipendente è uno strumento credibile e trasparente a garanzia di una gestione responsabile delle foreste e delle piantagioni e dei prodotti derivati.

ENVIRONMENT

— FSC is a product certification that guarantees the origin of the cellulose raw material from certified forests, therefore managed in a sustainable way. Since 2001 FSC had a remarkable development. It is now widespread in many markets and for many companies it has become almost mandatory to get it and keep it in time (the certification lasts five years, with annual checks). The reasons that drive the company to undertake this project are those of ensuring and demonstrating the correct use of products of forest origin, in order to increase the area of global forests managed in a sustainable way. The certification is issued by an independent organization and is a plausible and transparent tool to guarantee responsible management of forests and plantations and derived products.

PRODOTTI CERTIFICATI

— La certificazione CARB2 è rilasciata dai fornitori/ produttori di pannelli con una scheda che attesta l'emissione di formaldeide di un tale prodotto. Il valore di emissione dovrà essere al di sotto di 0,09 ppm. L'azienda si impegna a richiedere tale certificazione al proprio produttore, e di conservare la documentazione richiesta per un periodo non inferiore ai due anni.

CERTIFIED PRODUCTS

— The CARB2 certification is issued by the suppliers / producers of panels with a card certifying the formaldehyde emission of such a product. The emission value must be below 0.09 ppm. The company engages to request this certification from its manufacturer, and to keep the required documentation for at least two years.

ENERGIA

— Ecologia e rispetto per l'ambiente. L'energia solare raffigura da sempre la fonte rinnovabile per eccellenza, oggi è diventata anche il simbolo di un modo diverso di concepire l'energia e lo sviluppo economico. I vantaggi del fotovoltaico sono numerosi. Un impianto fotovoltaico genera energia pulita e rinnovabile. Sfrutta l'energia del sole trasformandola in energia elettrica utilizzabile all'interno dell'azienda. Diventa quindi uno dei migliori sistemi di produzione energetica green. L'azienda Kico abbraccia la filosofia imprenditoriale impegnata nella riduzione dell'inquinamento, contribuendo al risparmio energetico e a favorire la sostenibilità ambientale.

POWER

— Ecology and respect for the environment. Solar energy has always represented the best renewable source of power, today it has also become the symbol of a different way of conceiving energy and economic development. The advantages of photovoltaics are numerous. A photovoltaic system generates clean and renewable energy. It uses the sun's energy, transforming it into electricity that can be used within the company. Therefore it becomes one of the best green energy production systems. Kico embraces the business philosophy committed to reducing pollution, contributing to energy saving and promoting environmental sustainability.
