NOTORIOUS

Tales of elegance

Notorious è una nuova linea di prodotti firmata Marioni – Studio 63 ispirata al gusto degli interni degli anni '40. Notorious ci proietta in un'atmosfera hollywoodiana dove il fascino e lo stile si intrecciano con la bellezza. Una collezione completa che comprende mobili ed imbottiti, apparecchi illuminanti e complementi d'arredo nella quale l'utilizzo di finiture sofisticate trasmette immediatamente una sensazione di eleganza e raffinatezza. Essenze esotiche quali l'ebano ed il palissandro, materiali caldi come la pergamena ed il cuoio, velluti di lana e marmi preziosi, cristalline dai riflessi iridescenti e metalli spazzolati, tutto richiama ad un'armonia di colori e forme. Il messaggio è chiaro: Notorious vuole dare un'identità alla creatività Made in Italy, combinando design e riscoperta della maestria artigiana. Lusso come oggetto unico, ricco di una propria storia e di un'identità forte e pertanto impossibile da riprodurre in serie.

Marioni

Creare oggetti a Firenze è un'arte antica che affonda le sue radici nel Rinascimento. E' qui che nel 1966, dalla grande intuizione del fondatore Paolo Marioni, nasce e si sviluppa l'azienda. In pochi anni avviene la rapida trasformazione da piccola bottega artigiana a solida realtà industriale che conquista, con i suoi prodotti, spazi di mercato sempre più ampi in Italia e nel mondo. Fortemente connotata in senso familiare, nonostante le dimensioni attuali, Marioni di quelle origini conserva il senso di appartenenza con la dedizione e l'impegno che ne derivano; della Toscana, terra d'elezione, la tipica innata creatività. Una produzione ed un nome che oggi invitano a nuove, affascinanti dimensioni dell'abitare, proposte di oggetti inconfondibili per creatività, manualità di esecuzione e particolarità di disegni.

Studio 63

Ascolto, nuove storie, linguaggi non seriali, una progettualità sartoriale che ha come obiettivo la costruzione d'identità senza imporre il proprio segno. Questa è la filosofia di Studio 63, studio di architettura e design in Firenze, con un background che spazia dall'architettura al progetto di interni, dal product design fino all'art direction e al design consulting per aziende. Studiare un concept significa trovare gli strumenti per raccontare un'identità, unica per definizione proprio perché contraddistinta dalla sua storia e dal suo mondo d'ispirazione. Dare valore a questa identità, ascoltarla, arricchirla con nuovi elementi è l'obiettivo primario, che si raggiunge tramite l'esperienza progettuale e lo scambio di idee tra il progettista ed il cliente.

Notorious is a new collection of products designed by Marioni-Studio 63 inspired to the interior design of the 40's. Notorious projects us in the Hollywood charm, where glamour and style are interwoven with beauty. A complete line of furniture and upholstered furniture, lighting and home accessories, in which the sophisticated finishing touch evokes a sensation of elegance and refinement. Exotic essences, as the ebony or the rosewood, warm materials like the parchment or the leather, wool velvets and precious marbles, opalescent glazes' reflections and brushed metals, everything recalls the harmony of colours and shapes. The message is clear: Notorious would like to give an identity to the "made in Italy" creativity, combining design and the revival of the craftsmanship. Splendor like unique object, rich of its own history and a strong identity, therefore it is impossible to duplicate them in series.

Marioni

Create objects in Florence is an ancient art, that is firmly anchored in the Renaissance. It is here that in 1966, from the smart intuition of the founder Paolo Marioni, was born and developed the company. During a few years happened the rapid transformation from a small artisan workshop into a solid industrial reality, that gains with its products wide markets in Italy and in the world. A family-run business, despite the nowadays dimension, Marioni keeps, of its origin, the dedication and the responsibility connected to it, of Tuscany, country of choice, the typical natural creativity. A work and a name that today invite us to new fascinating living spaces, proposals of unique artistic objects, hand made production and peculiarity of the design.

Studio 63

Listening, new histories, non-serial languages, a design project that has a unique aim to create an identity without dictating its own sign. This is the philosophy of Studio 63, architectural and design firm in Florence, with a background that ranges from architecture to interior design, from product design to art direction and design consulting for companies. Studying a concept means to find instruments to tell an identity, unique for definition, because it is designed by its story and its inspiring world. To place a value on this identity, listen to it, enrich it with new elements, this is the main goal, it is achieved by design experience and the exchange of ideas between the designer and the client.

Illuminazione / Lighting

A close-up photograph of the Edna table lamp. The lamp features a large, curved, translucent yellow ceramic lampshade with a textured surface. The base is made of polished, reflective metal, showing a chrome-like finish. The lighting is warm, highlighting the smooth curves and the interplay of light and shadow on the ceramic and metal surfaces.

Supporto alla progettazione

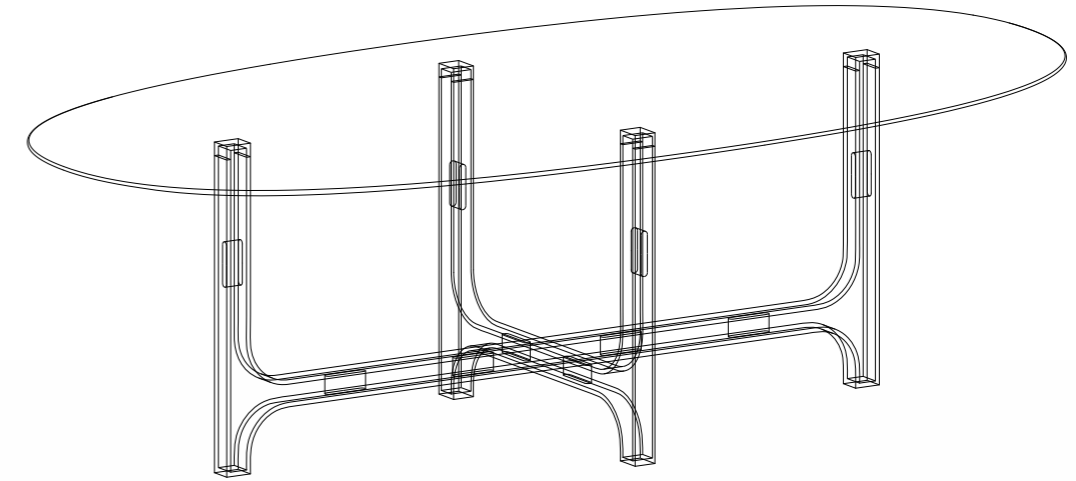

Tutti i prodotti della collezione Notorious nascono da una attenta progettazione e sono sviluppati con l'utilizzo di software di ultima generazione prima della prototipazione finale che invece è integralmente manuale e demandata ai nostri abili artigiani. Oggi sono disponibili per un uso professionale circa duecento modelli tridimensionali di elevata qualità tra cui troverete lampade, complementi d'arredo, divani, poltrone e sedie. I materiali (smalti, marmi, tessuti e metalli) sono invece visibili nell'area pubblica del sito www.marioni.it. Per poter accedere al download gratuito è necessaria una semplice registrazione.

Supporting design

All products in the Notorious collection are carefully designed and developed with the use of latest-generation software before the final prototype that is manufactured in house by our skilled craftsmen. We are therefore able to provide interior designers, architects and professionals an archive of 3D models as a useful working tool. Today about two hundred high-quality three-dimensional models of lamps, furnishing accessories, sofas, armchairs and chairs are available. The materials (glazes, marbles, textiles and metals) are visible in the public area of the site www.marioni.it. To access the free download a simple registration is required.
