

SELECTED SPACES

We believe that elegance is not a drab aesthetic but a vibrant approach. Sometimes you're serious. Sometimes you're light-hearted. That's life. But at least when you're at home, try to be carefree. Our furniture will help you.

Miniforms is an Italian manufacturer. We grew up with the smell of a carpentry, among raw materials and big machinery. We definitely know how to build something that lasts. We feel bound by Italian traditions and we mix our roots with contemporary production method. It's ok to look at the past, just don't stare.
