CONTEMPORARY

Tables

STORIA, INNOVAZIONE, TECNICA, ESTETICA

Quattro cardini uniti insieme per rispondere ad un linguaggio del lusso contemporary. I tavoli sono protagonisti degli spazi del vivere e diventano elemento di attrazione e di forte presenza scenica.

La cura di innumerevoli dettagli, e le lavorazioni artigianali, unite alla capacità di essere industriali nei processi esaltano la creatività, l'eleganza e il design, in equilibrio fra tradizione e innovazione.

HISTORY, INNOVATION, TECHNIQUE, AESTHETICS

Four cornerstones joined together to respond to a language of contemporary luxury. Tables are the protagonists of living spaces and become an element of attraction and a strong stage presence.

The attention to countless details, and craftsmanship, combined with the ability to be industrial in the processes, enhance creativity, elegance and design, in balance between tradition and innovation.

DESIGN

Tables

I tavoli "Disegno" non passano inosservati e come da tradizione hanno un forte connotato innovativo.

Sono tavoli che si distinguono per la leggerezza di linea e di forma e come da tradizione Reflex sono prodotti, dove la funzione e la forma si uniscono in un unico prodotto altamente tecnologico.

The "Disegno" tables do not go unnoticed and, according to tradition, they have a strong innovative hallmark. They are tables that stand out for the lightness of line and shape and, as per Reflex's tradition; they are products where function and form come together in a single highly technological product.

ART

Tables

Art come Arte, arte come la capacità dell'uomo di esaltare il proprio talento del saper fare.

Con i tavoli ART, Reflex mette in atto il talento di inventare opere che hanno tradizione, tecnologia e artigianalità allo stesso tempo.

I tavoli hanno una grandissima linea espressiva, mettono in mostra la capacità di modellare il vetro e plasmarlo, solo come Reflex è in grado di fare.

Arte as Art, art as the man's ability to enhance his talent for know-how. With the ART tables, Reflex puts into practice the talent of inventing artworks that have tradition, technology and craftsmanship at the same time. The tables have a great expressive line, showcase the ability to shape glass and model it, just as Reflex knows.
