Di Lazzaro opera nel settore dell'arredamento contemporaneo. L'azienda adottando una politica produttiva client-oriented atta a soddisfare le molteplici esigenze della clientela, ha percorso con intensità e dinamismo la strada della crescita da una realtà artigianale ad una industriale, sempre con l'obiettivo di realizzare prodotti di qualità, ricchi di una propria personalità e di tendenza, la posizionano tra le aziende più propositive del settore.

La continua ricerca di processi produttivi a basso impatto ambientale ha portato l'azienda a dotarsi di impianti di lavorazione dell'ultima generazione, completamente rinnovati, puliti e non inquinanti, consentendole di ottimizzare i costi. Attualmente l'azienda è presente su tutto il territorio nazionale, oltre che nell'ambito Europeo, con una rete capillare.

Ogni prodotto è l'espressione dei nostri obiettivi raggiunti senza cedere ad alcun compromesso su qualità, funzionalità e design, ed è la dichiarazione della passione per il nostro lavoro.

Di Lazzaro works in the sector of contemporary furnishings.

The company implemented client-orientated production policies from the very beginning to satisfy the many demands of its customers. This has resulted in rapid and intense growth from an artistic to an industrial level, yet the goal of the company remains the same: to create high-quality products with a strong sense of character and style, a goal that has placed amongst this sector's most innovative manufacturers. Ongoing research into environmentally-friendly production processes has prompted the company to use new-generation plants which have been completely renovated and are clean and non-polluting, offering the ultimate in cost-effectiveness. The company operates through the whole of Italy and at a European level through a capillary distribution network.

Each product is an expression of the goals we have been able to achieve without compromising on quality, functionality and design.
