Noce Secolare

Noce Secolare

Bei dem entrindeten, jahrhundertalten Noce Secolare della collezione Bontempi Casa è un legno selezionato proveniente da aree certificate del Sudamerica a riforestazione controllata, gestite secondo rigorosi standard ambientali e sociali. Questo vuol dire che ogni qual volta viene tagliato un albero per la produzione di prodotti Bontempi Casa, ne vengono impiantati degli altri al fine di restituire alla natura ciò che essa stessa ci ha donato. Caratteristica di pregio di questo legno è la sua unicità; ciascun piano, ricavato da un pezzo unico dal tronco o dai rami degli alberi dei rigogliosi boschi americani porta con sé i segni del percorso di vita di ciascuna pianta. Nodi vivi, spacchi naturali, variazione di toni di colore, ne testimoniano l'autenticità e l'unicità e sono da considerarsi caratteristica peculiare di questo prezioso materiale.

The Bontempi Casa heritage walnut solid wood is a selected wood coming from controlled reforestation areas of South America, managed under strict environmental and social standards. It means that every single time a tree is cut down to manufacture Bontempi Casa products, new trees are planted in order to give back to the nature what has been given us by nature itself.

The main quality feature of this wood is its uniqueness; each top, made from one piece of the trunk or from branches of trees of the luxuriant American woods, carries marks of life of each plant. Knots, natural cracks and slight differences in colors are due to the authenticity and uniqueness of this kind of wood and considered a peculiar feature of this valuable material.

Le noyer massif écorcé séculaire de la collection Bontempi Casa est un bois sélectionné provenant de régions d'Amérique du Sud certifiées à reboisement contrôlé, gérées selon des standards environnementaux et sociaux rigoureux. Ce qui signifie qu'à chaque arbre coupé pour la production de produits Bontempi Casa d'autres arbres sont replantés afin de rendre à la nature ce qu'elle nous a elle-même donné.

Une caractéristique précieuse de ce bois réside dans son unicité. Chaque plateau, obtenu en une seule pièce du tronc ou des branches des arbres des luxuriantes forêts américaines, renferme les signes du parcours de vie de chaque plante. Nœuds vivants, fentes naturelles, variation des nuances de couleur témoignent de son authenticité et de son unicité et doivent être considérés une caractéristique particulière de ce matériau précieux.

Bei dem entrindeten, jahrhundertalten Walnuss-Massivholz der Kollektion Bontempi Casa handelt es sich um ein Holz, das aus Gegenden Südamerikas mit kontrollierter Wiederaufforstung unter strengen Umwelt- und Sozialstandards stammt. Das bedeutet, dass jedes Mal, wenn ein Baum für die Herstellung von Bontempi-Casa-Produkten gefällt wird, neue Bäume gepflanzt werden, um der Natur das zurückzugeben, was sie uns geschenkt hat. Eine herausragende Eigenschaft dieses Holzes liegt in seiner Einzigartigkeit; jedes Brett wird aus einem Einzelstück des Stamms oder der Äste von Bäumen aus den üppigen amerikanischen Wäldern gewonnen und birgt die Zeichen des Lebensweges jeder einzelnen Pflanze in sich. Sichtbare Knoten, natürliche Risse und variierende Farbtöne sind besondere Eigenschaften, die die Authentizität und Einzigartigkeit dieses hochwertigen Materials belegen.

La madera maciza descortezada de nogal centenario de la colección Bontempi Casa es una madera seleccionada procedente de áreas certificadas de reforestación controlada en Sudamérica, reglamentadas según rigurosos estándares medioambientales y sociales. Esto significa que cada vez que se tala un árbol para fabricar los productos de Bontempi Casa, se plantan otros para devolver a la naturaleza lo que ella misma nos ha donado. La unicidad es una característica preciada de esta madera; cada tabla obtenida en una pieza única del tronco o de las ramas de los árboles de estos frondosos bosques americanos encierra los rasgos de la trayectoria vital de cada planta. Los nudos vivos, las hendiduras naturales y la variación de las tonalidades representan la autenticidad y la singularidad de la madera y deben considerarse una característica peculiar de este precioso material.

Окоренный массив столетнего ореха коллекции Bontempi Casa - это дерево, тщательно отобранное из сертифицированных областей Южной Америки, находящихся под лесовосстановительным контролем, который проходит в соответствии со строгими экологическими и социальными нормами. Это означает, что каждый раз, когда спилили дерево для производства продукции Bontempi Casa, высаживается другое, чтобы вернуть природе то, что она дала нам. Преимущество этой древесины заключается в ее уникальности; каждая столешница, сделанная из древесины деревьев густых южноамериканских лесов, несет в себе признаки жизненного пути каждого растения. Живые сучки, естественные трещины, вариация цветовых тонов свидетельствуют о подлинности и уникальности, что является особенностью этого драгоценного материала.

Die Keramik des Arabesken-Supermarmors von Bontempi Casa ist gegenüber Natursteinen extrem widerstandsfähig und bietet ein hochwertiges und elegantes Erscheinungsbild mit Höchstleistungen.

Surge de la combinación entre la cerámica y el cristal, el supermármol con motivo arabesco de la colección Bontempi Casa conjuga estética y funcionalidad. Las vetas en los tonos cálidos de las gamas de beige y grises que se extienden a lo largo del tablero son exaltadas por el acabado brillante. Sumamente resistente respecto a las piedras naturales, la cerámica del supermármol con motivo arabesco de Bontempi Casa transmite un resultado estético apreciado y elegante que ofrece altísimas prestaciones.
