The back sections slid backwards increase the seat depth of 42 cm whereas the sideways moving arms once extended, increase the seat width of 25 cm. The Toby wing becomes a unique place, an island where to rest, dream, taking a break in full comfort.

Moreover, it can be somehow customised by choosing the maxi chaise longue, where two people can comfortably share precious moments together. Available both with corner and chaise longue versions, this model represents an extremely versatile solution, yet keeping a light and uplifted structure, thanks to the tiny metal feet, available in several different finishes. Il massimo del relax si ottiene aggiungendo alla composizione cuscini optional che rendono ulteriormente confortevole la spalliera angolare oltre a costituirne elemento di decoro.

Il comfort del cuoio. Una passione per la pelle.

Le pelli usate sono attentamente selezionate e conciate in modo da salvaguardarne tutte le caratteristiche naturali e senza l'utilizzo di prodotti nocivi per la salute. Ogni manto viene controllato in ogni dettaglio, anche attraverso il "Veslic test" per valutarne le caratteristiche e decidere l'uso più adeguato alla sua valorizzazione, assicurando bellezza e durata nel tempo. Le pelli smerigliate sono sottoposte ad un procedimento che permette di rendere regolare e resistente la superficie. Questi tipi di pelle sono facili da pulire e sono adatti ad arredare gli ambienti più frequentati della casa. Le pelli pieno fiore sono ottenute da manti selezionati. La superficie è ricoperta da un leggero strato protettivo che conserva e protegge la bellezza naturale. Possono essere presenti alcuni segni distintivi della vita dell'animale, il colore può avere leggere differenze di tonalità. Questa tipologia di pelle dona al tatto una sensazione naturale e setosa straordinaria. Le pelli aniline non subiscono alcun processo di rifinitura in superficie, mantenendo così inalterate tutte le caratteristiche originali del manto bovino. La presenza di segni quali cicatrici rimarginate, differenze di grana, rughe, venature, diversità di tonalità nel colore sono prova di assoluta genuinità della pelle.

Let's get comfy. A passion for leather.

Leathers have been carefully selected and tanned, so to maintain all their natural characteristics without using substances which could be harmful to human health. Each hide is checked thoroughly, also by means of a "Veslic test" which is conducted in order to ascertain its characteristics and decide the better way to use a specific piece of leather, thus ensuring its beauty and durability. Buffed leathers undergo a treatment to even out and strengthen the surface of the grain. This kind of leathers are easy to clean and are perfect to complement the busiest rooms in the house. Full grain leathers are selected hides, whose surface is covered by a light protective layer to maintain and preserve their natural beauty. Some distinctive signs of the animal's life may be visible and the surface may show some differences of tone. These leathers have a natural touch with a lovely silky feel. Aniline leathers do not undergo any finishing process on the surface, thus maintaining all the original characteristics of the cowhide unaltered. The presence of signs, such as healed scarring, wrinkles, veining and differences of color, tone and grain is an unquestioned evidence of genuineness.

Oltre il comfort con Calia Cultura: per sostenere il benessere in ogni forma. Calia Italia non fa attenzione solo al comfort del corpo, ma anche a quello della mente. Per questo istituisce nel 1990 la sezione Calia Cultura con l'obiettivo di favorire, oltre allo sviluppo economico della sua regione, anche la crescita sociale e culturale. La passione per l'arte va oltre il design. Con Calia Cultura, Calia Italia sostiene il territorio contribuendo alla sua salvaguardia e conoscenza, avvicinando la comunità locale all'arte, alla cultura, al sociale, comunicando valori, mettendo a disposizione competenze, risorse economiche e strutture. Le persone, il nostro patrimonio. Un impegno che si traduce in sicurezza e vivibilità sul posto di lavoro, esami clinici, investimenti in progetti ad alta valenza sociale e promozione di iniziative culturali accessibili a tutti.

Dalla parte del futuro della cultura. Calia Italia ha promosso negli anni numerosi progetti didattici e culturali, quali rassegne teatrali, mostre, eventi di moda e spettacolo, festival jazz con un occhio particolarmente attento al talento dei giovani artisti. Non scartiamo niente e nessuno. Il progetto "Ricami di Pietra" ha contribuito alla valorizzazione delle persone malate di mente del Dipartimento di Salute Mentale di Matera. Coadiuvate dalle cucitrici di Calia Italia con l'utilizzo di materiali di scarto di produzione, e attraverso il coinvolgimento dell'artista Danielle Sulewic, le pazienti hanno dato vita a bellissimi oggetti d'arredo ispirati ai disegni dei bambini raffiguranti i Sassi di Matera. Privati della libertà ma non del talento. Calia Italia sostiene "Made in Carcere", un'Associazione no profit volta alla valorizzazione dei detenuti e al loro reinserimento nella società, tramite la donazione degli scarti di produzione utilizzati per realizzare manufatti di valore. Perché non c'è possibilità di riscatto e rinascita senza la valorizzazione della persona e del suo talento. Oltre le barriere fisiche e mentali. Inclusione, condivisione, integrazione. Calia Italia sposa i valori dello sport e sostiene la prima Associazione sportiva dilettantistica paraciclistica del Sud. L'impegno a sostegno della salute. La sede di Calia Italia dal 2014 è anche la sede del Comitato AIRC Basilicata, l'architetto Saverio Calia è il suo presidente. All'interno dell'azienda vengono organizzate conferenze e seminari aperti al pubblico sulla prevenzione dei tumori e per migliorare lo stile di vita. Matera, Capitale Europea della Cultura 2019 Calia Italia ha sostenuto la candidatura di Matera a Capitale Europea della Cultura 2019 fino a diventare Official Comfort Supplier allestendo i palchi e le mostre e contribuendo alla realizzazione degli eventi ospitati a Matera durante il 2019.

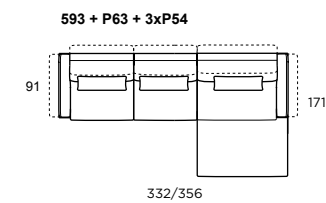

Comfort and beyond with Calia Cultura: supporting well-being in each form and shape. For Calia Italia both body and mind comfort are crucial. That is why, in 1990 Calia Cultura, an awareness program with the aim of fostering the economic development of the territory and promoting it both socially and culturally, came to life. Passion for art beyond design. Through Calia Cultura, Calia Italia supports the territory contributing to its safeguard and understanding, bringing the local community close to arts, culture, social issues, transmitting values, offering skills, economic resources and structures. Human resources, our assets. A commitment that turns out into safety and good working conditions, medical exams, investments in social issues and promotion of cultural initiatives accessible to everyone. Supporting future, promoting culture. Over the years Calia Italia has promoted didactic and cultural projects, such as theater seasons, art exhibitions, fashion events, performances and jazz festivals always keeping an eye on talented young artists. Nothing and no-one is discarded. The “Ricami di Pietra” project has contributed to encouraging the reintegration of mentally ill people hosted at the Department of Mental Health of Matera. Thanks to the precious cooperation with the artist Danielle Sulewic and the support of Calia Italia’s sewers and using production scraps, patients created unique furnishing objects inspired by children’s drawings featuring the Sassi of Matera. Deprived of liberty, not of talent. Calia Italia supports “Made in Carcere”, a no-profit Association whose aim is the social reintegration of inmates. Leather and fabric scraps are handed over by the company so that inmates can create exquisite handmade items. As there can’t be any chance of recovery or redemption if people and their talents are not encouraged. Beyond physical and mental barriers. Acceptance, sharing, integration. Calia Italia embraces the values of sport and supports the first para-cycling Amateur Sports Association in Southern Italy. A commitment to support health. Since 2014 Calia Italia’s headquarters host the Basilicata AIRC Committee, of which Saverio Calia is chairman. Within the company, conferences and open-to-the-public seminars are held, in order to make people aware of themes such as cancer prevention and correct lifestyles. Matera, 2019 European Capital of Culture. With pride and conviction, Calia Italia supported the path that led the city of Matera to win the title of European Capital of Culture 2019. The company became the Official Comfort Supplier thereby setting up the stages and exhibitions whilst also contributing to the realisation of the events hosted in Matera during 2019.
