Piet Mondrian is recognized for the purity of his abstractions, as he radically simplified the elements of his paintings to reflect his perception of the world as opposites and asymmetry. This painter's unique artwork moved the designers to develop the Mondrian Collection. Composed of geometrical squared shapes and cascading Swarovski crystals, this is an interpretation of dynamism and elegance.

Chantel is a smooth symphony of shapes and geometry, paired with precious materials and a sharp-lined structure. Having a duality idea in its design, this contemporary table lamp reflects its top and base like a mirrored image, granting a special magnetism to this piece. Its structure is made of glitzy brass, paired with a cylindrical Estremoz white marble. The exceptionally elegant and creative table lamp makes it easy to uplift the interior design with a new aesthetic in decorative lighting.

ECLIPSE

Eclipse Collection was named after the solar eclipse phenomenon when the moon creates a shadow that partially inhibits sunrays from being seen from Earth. Recreating this natural wonder, its design is composed of two rounded brass plates, with a slight distance between them, only allowing little crescents of light to shine through. The front plate is hammered by hand, reflecting in the shiny finish in the back.

CRYSTAL COLLECTIONS

The avant-garde spirit of Castro Lighting led to the creation of exceptional lighting designs, where the use of crystals has played a key role in establishing the brand's design signature. Since 1978, the brand has kept up with the evolution of classic design tendencies and has been implementing modern accents and techniques to improve the design's distinctiveness and timelessness.

From very early on, the importance of crystal lighting started to be appreciated, and today, the brand's personality shines brighter through these breathtaking and exclusive design experiences, that diffuse everlasting elegance and beauty.

A long-term partnership with Swarovski has also been established throughout the years, tracing a path of growth and trust. The success of this association is mainly due to the sharing of truthful values and a great commitment to excellence and quality. The fusion of both brand's strongest attributes unlocked the opportunity to create designs that manifest attention to detail, creativeness, and originality. A prestigious combination of crystal and brass.

MONDRIAN

Mondrian is recognized for the purity of his abstractions, as he radically simplified the elements of his paintings to reflect his perception of the world. His unique artwork moved the designers to develop the Mondrian Collection.

MARIE

Marie Collection was named after Marie Antoinette, the last Queen of France before the French Revolution. This design bears the same name and grandeur it grants. Marie Antoinette was well known for her extravagant and extremely luxurious lifestyle, extrovert personality and love for fashion, parties, and fun. This collection aims to express the burst of lavishness that once lived in the Versailles' Palace, being a contemporary piece that would be the Queen's choice if she lived in our times.

PABLO

Pablo Collection's design was influenced by the art movement of outstanding Pablo Picasso. It materializes the artist's vision and wish to surprise at each perspective, suggesting a three-dimensional form of conception. A powerful combination of materials, such as brass and a mesmerizing upholstery, makes it a sophisticated high-end collection. Pablo's retro design aims to be more than what meets the eye.
