EXTERIOR LIVING

COLLECTIONS

COLLECTIONS

THE OUTDOOR PHILOSOPHY

Get back to the center of our pleasure, our time, our relax. Conceiving, and thus living, every space. The most important uses, its amenities, its aesthetics. A new philosophy of living that looks beyond the geometric design limits of our homes. Just outside the boundaries, where the essence of relaxation and contact with nature is hidden, an open place to breathe in, take care of and make our own. Exteta brings the best design outside and transforms the outdoors into a completely absorbing experience of aesthetics and functionality. An infinite range of possibilities that creates an outdoor style of harmony.

THE CUSTOM MADE

Making our own the spaces we live in. Our ideas are often dulled travelling along standard lines: we are content to choose the product that most excites us, the finish that best matches our choices, without ever thinking of being able to make every element of our space our own. Exteta creates projects that break away from the usual standards, realizing unique ideas based on the wishes of each customer, putting them at the center of their own world and building it for them. Not single products, but elements born from minds that can develop them for each request. A custom experience that allows one to experience outdoor living, forgetting its natural limits and to have the tools to give a unique touch to one's space, guided by those who for years have followed the cult of beauty, design and contemporary expression.

THE CRAFTSMANSHIP MADE IN ITALY

Create in the name of uniqueness. The quality of Exteta products is the purest expression of Italian craftsmanship, of that attention to details and the perfection so loved by the world that constantly seeks to imitate its essence. The hands of the craftsmen who make each piece hold the knowledge of secret traditions, carefully guarded and handed down from one generation to the next so as to continue to create unique works, which are united over time with advanced technologies to make a perfect product. In the love for uniqueness lies one of the core values of the Exteta philosophy, which creates custom design experiences for outdoor living, discovering every line and functionality of a new vision of the world beyond the indoors.

THE MATERIALS

Seek rarity and make it perfect. Exteta enters into the essence of the rarest materials, striving for excellence and uniqueness in order to be able to shape and transform them into products that become the stars of outdoor environments. Exteta research is combined with a philosophy of respect for the environment and faithfully meeting client expectations: the beauty of its custom experience lies in the choice of woods and materials whose production is linked to the cycles and possibilities of nature. Alongside this harmonious ability to relate to the rules of the outside world, Exteta is constantly experimenting and developing, producing and innovating technologies that knock down the barriers of open-air usage: patented fabrics and treatments bring to life the ultimate dream of an uncompromising outdoor environment.

10TH COLLECTION BY MASSIMO CASTAGNA

In celebration of the 10TH anniversary of Exteta, a new collection is reminiscent of the company's lifestyle along with its values, sense of space, and the connection to nature, represented by unique shapes and materials. Today, this harmony creates a profound experience that strengthens the worldwide recognition of an already important name in Italian design.

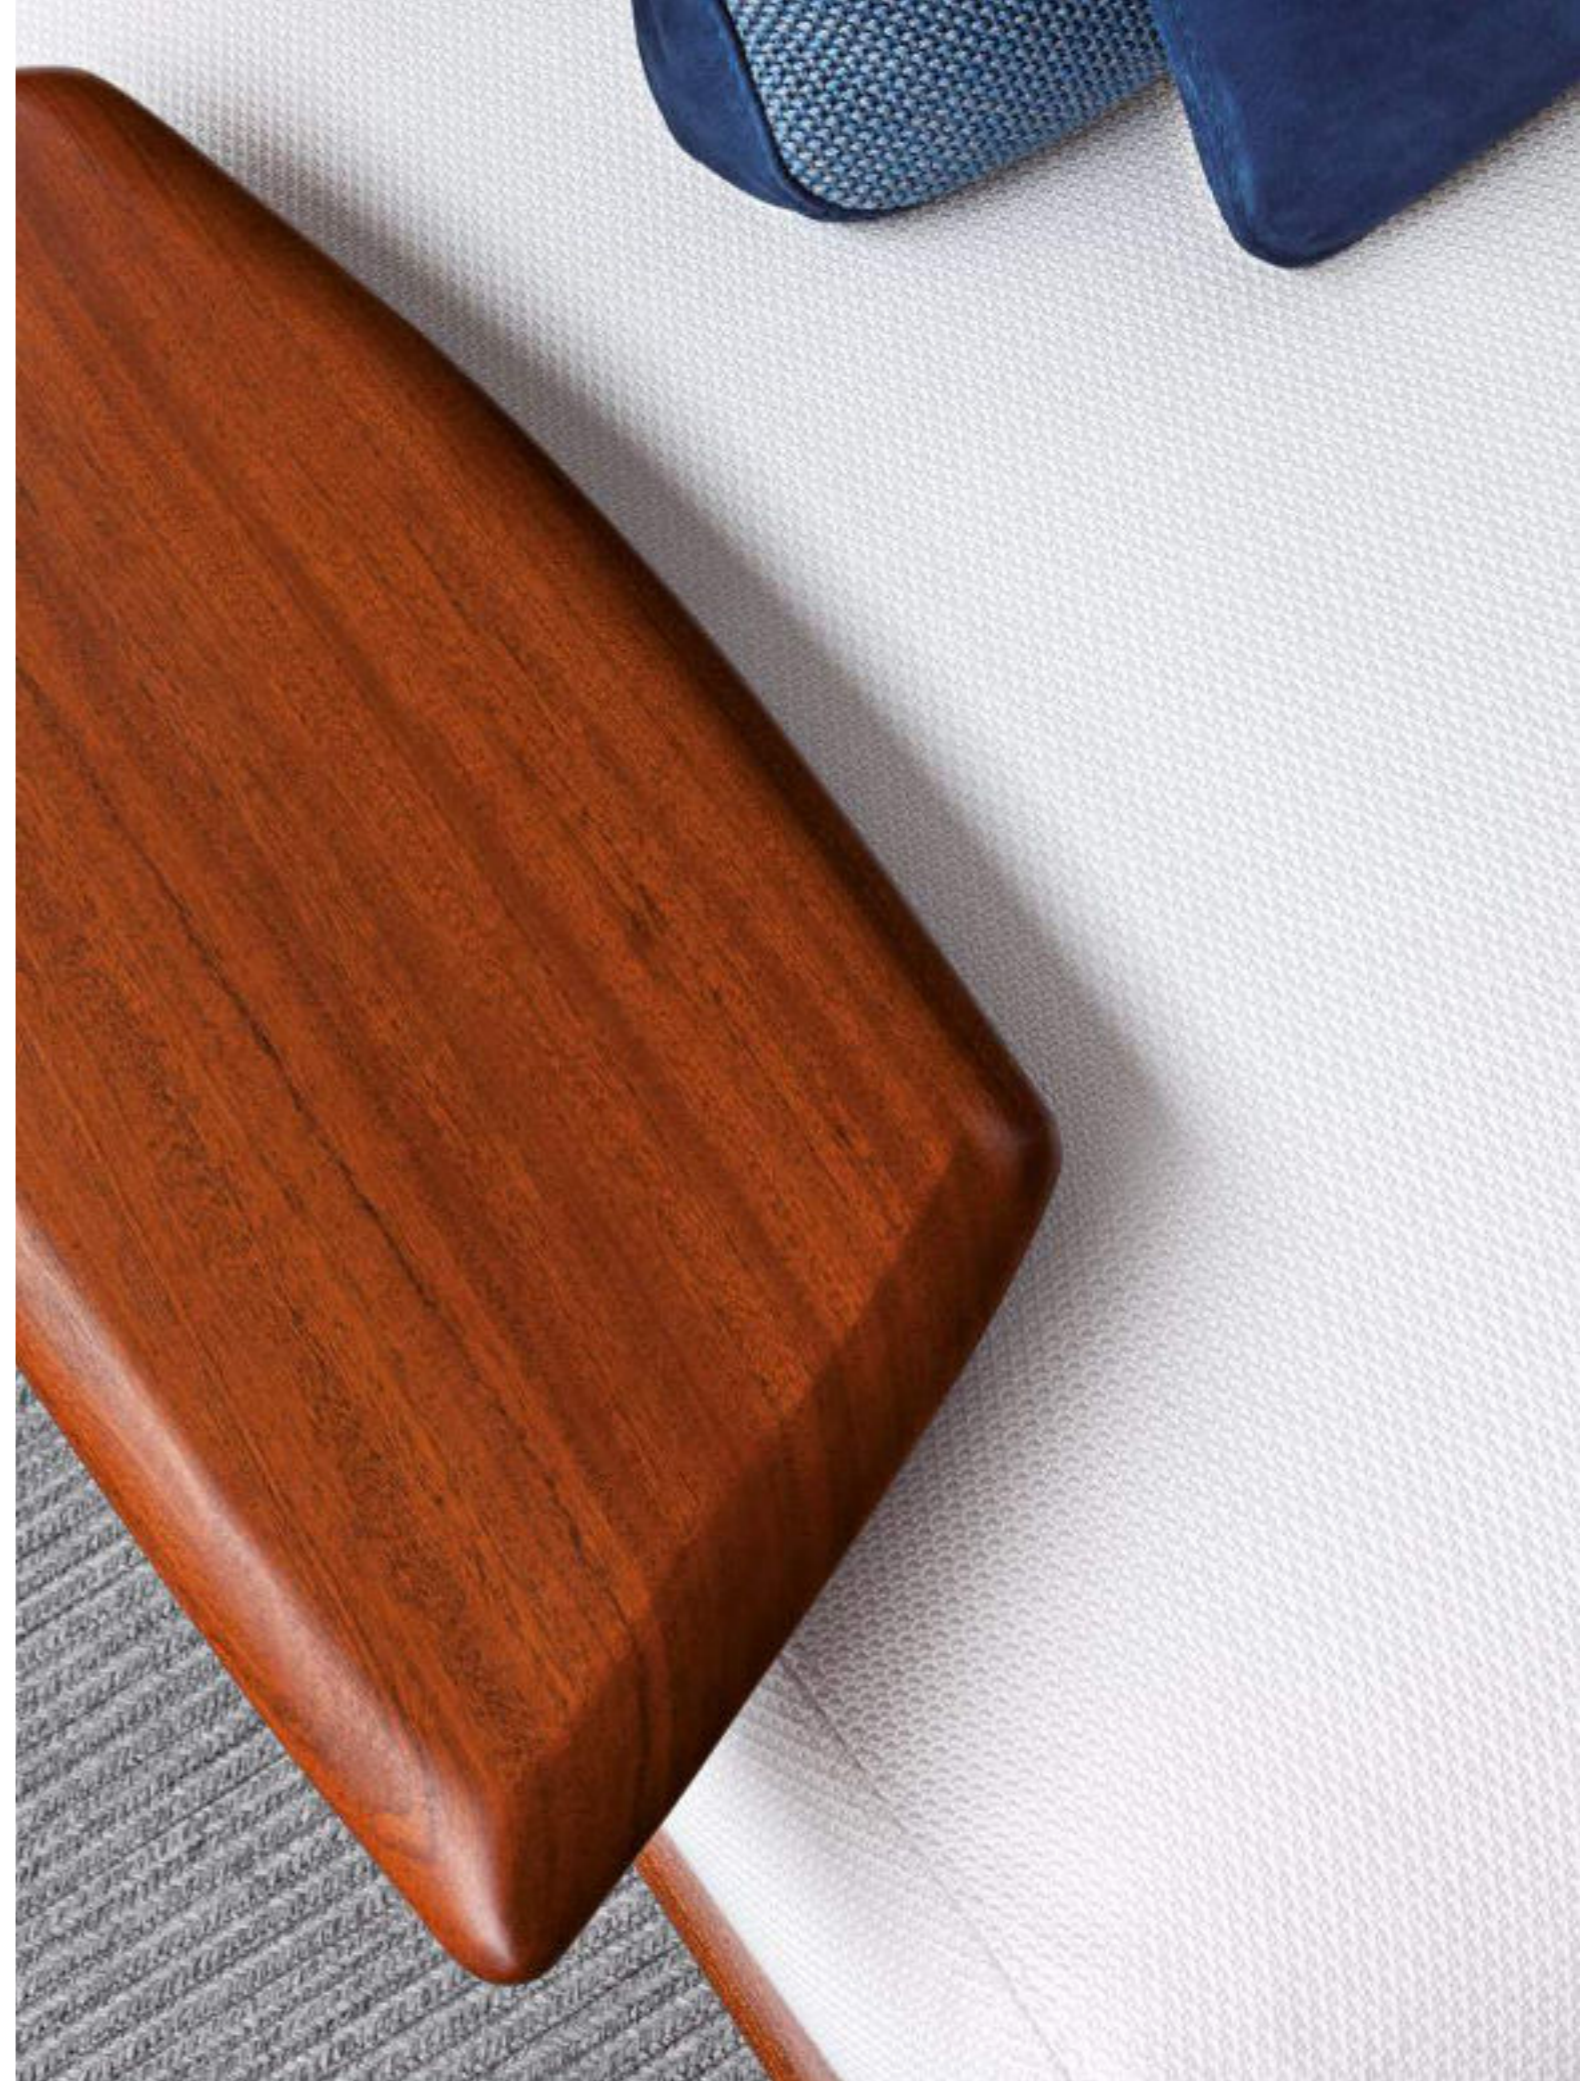

With "10TH", Massimo Castagna interprets Exteta's outdoor designs by focusing on surprising moods and feelings with one-of-a-kind pieces for their subject, originality, and philosophy. A collection that brings interior design functions to the outdoors, it reimagines them and is second to none with regards to use of space. The collection creates a precedence that is capable of surpassing the limits that can hold us back. Thanks to the innovative finishing touches, materials, and products combined with traditional Exteta elements, the unique and celebrated collection is full of new life.

EXTETA COLLECTION

The fragrance of an outdoor space conceived in harmony with nature, permeated by an atmosphere of well-being. A place in which to immerse oneself, enveloped by the warmth of a design that lives through its relationship with people and their needs, offering them the experience of a different way of discovering the outdoors.

The Exteta mood combines a wide range of solutions and unique pieces that are the fruit of rare craftsmanship, the pride of the coveted Italian-made products and of the talents of the leading names in international design. Not a collection, but rather a lifestyle that brings continuity to the attention given to interior design, creating a harmony of materials, lines and functionality in an outdoor environment awaiting discovery.
