WHAT IS ECOSMART FIRE?

An EcoSmart Fire is a bespoke piece of industrially designed fire furniture that exudes warmth, burns cleanly, and defines a space without dominating it.

From luxury resorts to commercial showrooms and residential settings, EcoSmart is embraced by the world's leading architects, designers, developers, landscapers – and style savvy homeowners.

FUELLED BY e-NRG BIOETHANOL BURNS CLEAN NO SOOT NO SMOKE NO ASH

INDOOR & OUTDOOR MODELS

OVER 90% EFFICIENCY NO GAS, NO FLUE, NO ELECTRICITY

QUICK & EASY INSTALLATION

WHY CHOOSE **ECOSMART** FIRE?

Independently certified safety features: endorsed by design, construction and landscape professionals; free from utility or flue restrictions; loved by homeowners; kind to the environment - there are countless reasons why choosing an EcoSmart Fire is the smartest fireplace option.

Architecturally designed to enhance contemporary living and commercial spaces, EcoSmart Fire adds warmth and ambiance with a clean-burning, flickering flame that is free from soot, smoke or ash. Now that's what we call EcoSmart.

Ultimate Fire Design Flexibility

With the uniquely versatile EcoSmart Fire, you have the building block to help bring your design to life.

Because bioethanol is clean burning, EcoSmart Fire models do not need a chimney or a flue, or a utility connection – offering the ultimate in fire design simplicity and flexibility.

Committed to Safety

Researched and developed by our in-house design team, tested by independent facilities, and fabricated according to our own exacting standards – the EcoSmart Fire is an expression of our commitment to creating the best. The combination of rigorous testing, independent certification and leading safety features is why the EcoSmart Fire gives you priceless peace of mind.

Recognised World Wide

It's one thing for us to believe in our own product but quite another when the world's leading architects, designers and landscapers embrace it.

EcoSmart Fire doesn't just add to a space, it defines it. When quality, style, reliability and safety are paramount, EcoSmart Fire is the fireplace of choice for connoisseurs of style and substance.

Review our extensive gallery of installations on our website ecosmartfire.com

Personalised Support

Our team works closely with professionals such as architects, designers, landscapers, builders, developers and, of course homeowners to ensure the most appropriate EcoSmart Fire models are selected for each individual project.

Eco-friendly

EcoSmart Fire uses the cleanest, most efficient fuel source on the market: bioethanol. Bioethanol is an eco-friendly fuel that burns clean and has a minimal carbon footprint. The fact that no flue or chimney is needed means most of the heat generated by an EcoSmart Fire remains in the room.

WE HAVE YOUR FIRE DESIGN SOLUTION

Whether you're creating a custom fireplace feature, renovating an existing hearth, or looking for an out-of-the-box system, we have a stylish solution to suit your needs.

The EcoSmart Fire collection of bioethanol fireplaces is incredibly versatile and gives you absolute installation flexibility to create exactly what you want, without any hassles or restrictions.

From hand crafted freestanding pieces of fire furniture, to builtin custom designs for bespoke settings - EcoSmart Fire offers a complete collection of versatile and award-winning fireplace solutions that make having an open flame incredibly easy, whatever the setting, at the same time as being good for the environment.

Built-in

Elegantly designed and robustly constructed, EcoSmart's bespoke built-in fireplaces add a dramatic showpiece to residential and commercial premises.

Offering optimum heat output, flame enhancement and safety, their high quality, stainless steel and toughened glass construction complements a wide range of building materials and finishes.

Free from traditional installation restrictions such as plumbing, roof work, and gas or electricity connections, they provide unlimited design options for builders, architects, interior designers and homeowners.

Freestanding

Freedom, flexibility and eco-friendly functionality – EcoSmart's freestanding bioethanol fireplaces add warmth, style and ambiance to indoor living and outdoor entertaining spaces.

Cleverly refashioning the traditional fireplace concept into a piece of flexible fire furniture means that you can now enjoy the simple pleasures of an open fire whenever and wherever you want it.

From classic designs to see-through centrepieces, this collection of freestanding fireplaces is defined by its streamlined construction, sophisticated ignition system and sustainable fuel source. Boasting minimalist chic and maximum functionality, EcoSmart's fire solutions create an architectural focal point even when they are not in use.

Built-in

Bioethanol Burners

The core of all of our fireplaces, offering the ultimate in design and installation flexibility.

The residential and commercial creative design possibilities are endless when you use a flueless, vent-free ethanol burner.

Fireplace Inserts

Elegantly designed and robustly constructed, our fireplace inserts are available in a range of styles and finishes. Choose from six versatile styles in our Flex Fireplace Series, or our Curved Fireplaces.

Our fireplaces do not require any flashing, roof work or plumbing, which significantly reduces installation costs and time. Installed with ease, these fireplaces can be integrated within cabinetry or a fireplace setting, EcoSmart fireplaces offer the perfect blend of functionality and design aesthetics.

Freestanding

Fire Tables

Create a stunning yet soothing indoor or outdoor atmosphere with the help of a ethanol fire table. Our multi-functional tables are a truly remarkable portable heat source. More than accents, our versatile fire tables provide a welcoming destination and make entertaining ever so easy.

Fire Pits

A cosy and warm fireplace will perfectly complement your contemporary indoor or outdoor space. Available in different shapes, sizes and finishes, you're guaranteed to make memories around our ethanol fires.

Designer Fireplaces

Enrich the contemporary aesthetics of today's residential and commercial environments with a relocatable piece of fire furniture. With no installation or building works required, simply unpack, put the fireplace into position, and off you go.

Accessories

Our clean and simple fireplace screens, fixing systems, fireplace covers and accessories have been designed to improve the safety of operating an open fireplace without compromising the view to the flame.

Built-in

BIOETHANOL BURNERS

Midorinokaze Resort Kitayuzawa, Japan Model: XL900

The Noguchi Collection Relaxation Library at the Midorinokaze Resort features ultra-comfortable sofas arranged to put your mind and body at ease and while EcoSmart's mesmerising, flickering flame creates an enticing atmosphere.

"The fireplace is the center element of the lounge, creating a focal point that divides the seating groups. It's the feature that can be seen from all areas of the space and enhances the warmth of the walnut panelled room."

MEAGHAN WREN. MEYER DAVIS STUDIO

AKA Hotel, New York USA Model: XL700

The intimate a lounge artfully complements the traditional warmth of New York's AKA Sutton Place with a relaxing yet of-the-moment ambiance. Numerous cozy seating areas, a spectacular marble bar and open fireplace created with an XL Burner completes the stylish scene.

Toca Madera, USA Model: XS340 x 2

Located in a Los Angeles restaurant "conceived around a communal dining philosophy", EcoSmart's twin bioethanol burners create a captivating see-through effect between eating and entertainment spaces. Enhancing Hollywood's latest hotspot is a series of flickering flames that work well with the earthy colour tones.

St Regis Hotel, Istanbul Turkey Model: XL500 x 2 Opposite Page: XL900 x 3

Istanbul's modernist Art Deco-influenced St. Regis uses EcoSmart's stunning fire feature in its Petit "O" Bar (above), which offers a formal setup during the day before transforming into a relaxed lounge area when the sun goes down.

Located next door is the hotel lobby (right), which greets guests with a wall of flickering flame courtesy of three XL900 Burners. EcoSmart's longest linear burner creates a stunning horizontal piece of architecture when grouped for maximum effect.

"The burners take the piece from ordinary to extraordinary." ROSIE BLAY, LIQUID DESIGN

Hippo Creek African Grill, Perth Australia Model: XS340 x 3

Cleverly tailored EcoSmart Burners are helping set the scene for a vibrant new African grill themed restaurant in Perth.

Restaurant La Cave, Japan Model: XS340 x 2

Transforming a simple table top into a dynamic design feature is seamless with EcoSmart's discreet bioethanol burner, which has been cleverly incorporated into a non-combustible platform. The 2.5L ethanol burner delivers a beautifully long-lasting flame - perfect for busy bars and restaurants.

Rising Glen, USA Model: XL900

A functional room divider becomes a stunning design feature with a peninsular fireplace that helps define the space without dominating it. Glass screens protect the flame from breezes without obstructing the view while the smoke-free flame ensures the white walls and chic furnishings remain unsullied.

Sky and Space, USA Model: XL900 Architect & Interior Designer: Andrew Mikhael Photographer: Jeffrey Kilmer

"Nothing looks or performs as well as EcoSmart. Having a flue-less fireplace also meant a huge amount of savings on space and construction expense. We could place the fireplace in an area that would have been impossible to have a fireplace in if we were to use traditional fireplaces that need

MARCO DIMACCIO, PRINCIPLE DESIGNER AT PUNCHOUSE DESIGN GROUP

to be vented."

Private Residence, Santa Monica, California USA Model: XL900 x 2

The presenter of US documentary show 'Our America' had clear views in the design of her new home – and it has now become the first-ever energy neutral residence in Santa Monica, California.

The Brindabella, Perth Australia Model: XL900

This outdoor entertaining area designed by Webb & Brown-Neaves is indicative of their commitment to building every home as if it were their own.

Private Client, Brisbane Australia Model: XL900

An expansive, exposed terrace of a Brisbane high-rise apartment has been transformed into a stunning, cosy environment with different alfresco living 'zones' complete with an open fire. Photo: Kylie Hood Photography

"It really is the ideal choice when

Paramount Hotel, New York USA Model: XL900 x 3

The lobby centrepiece in New York's Paramount Hotel, which is located in the theatre district, could be described as "dramatic" courtesy of three EcoSmart XL Burners and polished steel sheets.
Photo: Michel Arnaud

Private Residence, Australia Model: XL1200

Commercial Space, Japan Model: XL1200

"I put forward the idea of the EcoSmart Fire to bring more warmth and character into the room. I believe fire is engaging and inviting" LEE HARDCASTLE. **ENIGMA INTERIORS**

Enigma Interiors, Australia Model: XL900

EcoSmart Fire has been cleverly used to create some distinctive kitchen designs – and this one in Queensland, with its emphasis on quality fittings and appliances, is no exception.

Private Residence, UK Model: XL700

Purpose-designed baffle inserts allow homeowners to regulate and stabilise the flame while simultaneously increasing fuel efficiency.

Private Residence, UK Model: XL700

EcoSmart Fire's elongated flame creates an instant focal – and talking – point for living spaces.

Buildwise, Australia Model: XL900

An increasingly popular trend - integrated units featuring open fire with audio visual systems - is easy with EcoSmart's zero-clearance, flue-less fire solutions.

Longitude 131°, Australia Model: XL700

This luxury resort overlooking Uluru in Outback Australia incorporates EcoSmart's fire features in its elevated tents, enabling guests to stay warm while soaking up the celestial serenity.

Photo: George Apostolidis

McGrath Real Estate Office, Australia Model: XL1200

Designed by The United Collective and built by The Outfit Group for McGrath real estate agency, this custom joinery is beautifully contrasted with hints of golden accents and a lively orange flame at its center. The use of dark tones and white marble surround creates an elegant focal point that is subtle, yet visually striking.

The Estreal, Japan Model: XL700 x 4

A sophisticated take on the traditional fireplace, this indoor fire feature utilises four elongated XL Burners to create a captivating conversation pit that attracts guests with its flickering flame and soothing warmth. "I use EcoSmart Fire burners because they're beautifully thoughtfully d well-built burnin embodies the sustainab ty values 1 adherete work."

Private Residence, California USA Model: XL700 x 2

San Diego custom furniture designer Jamie Huffman has long embraced the element of fire, often incorporating them into his innovative designs.

"The EcoSmart fires are just so versatile in terms of how you can use them in a design, they look stylish, have a compact design, aren't messy and don't need to be vented. I'm looking at including them in my next project." CRISTINA HOFMAN NTERIOR DESIGNER

"We loved the simplicity and flexibility of the product's design, how the 'system' worked, and the ease of incorporating it into the fit-out and fixed joinery items." RIAN MEYERSON ARCHITECTS, AUSTRALIA

Wyndham Grand Hotel, London UK Model: BK5

A five-star all-suite hotel in London is setting a new benchmark in luxury accommodation - with EcoSmart Fire providing distinct focal points.

May Fair Bar, London UK Model: BK5 x 3

Breathing new life into an old fireplace at the acclaimed May Fair Bar in London has been easily achieved with a series of BK5 EcoSmart Burners.

The Long Room, Melbourne Australia Model: BK5 x 4

Renowned, opulent Melbourne venue The Long Room is defined by its signature bar and series of EcoSmart Burners set into elongated benches. This results in perfect room dividers and talking points.

St James Boutique Hotel, London UK Model: BK5

Design possibilities are endless when there's no need for a flue or chimney, and the clean burning fuel doesn't emit smoke, soot or ash.

Private Residence, USA Model: BK5

Vintage fireplaces are seeing a resurgence in popularity within the design community and lending their classic shape to clean burning conversions.

Private Residence, Sydney Australia Model: BK5

The combination of fire and water makes a dramatic entrance statement for an inner city Sydney home.

"The EcoSmart Fire solution has delivered

Allianz Arena, Munich Germany Model: BK5 x 3

The Allianz Arena in Munich is the location of an amazing new Cooking Lounge - and it's not just the clients' appliances and technology that are making a statement.

DR LEONARD FARBER FOUNDER

Creating a sense of warmth and comfort within a state-of-the-art cancer treatment center in New York was a key focus for architect Jeffrey Berman and the inclusion of an EcoSmart Fire provides the requisite soothing environment.

Achieving a beautiful, vibrant flame in your ethanol fireplace is easy when you use the right fuel.

Bioethanol is pure alcohol. The combustion of bioethanol is clean, which makes it an efficient and effective source of heat because there is no soot, ash or harmful emissions that need to be extracted through a flue - meaning all the heat stays in your room.

Specifically packaged and labelled for use in liquid ethanol fireplaces, e-NRG Bioethanol is formulated with the perfect blend of ingredients to give you a brilliant orange flame in your flue-less fireplace.

Fire up your bioethanol fire with the highest quality, cleanest burning bioethanol available, visit e-NRG.com

Clean Burning

e-NRG produces no harmful emissions - just heat, steam and carbon dioxide, which is reabsorbed by plants.

Fast Refilling e-NRG bottles pour 8 times faster than the competition.

Packaged to Perform

e-NRG offers the safest and most efficient fueling process on the market.

Flame Arrester

The bottles are fitted with a flame arrester for safe refilling.

e-NRG is supported by an operational procedure to ensure it's used in the safest way.

LIGHTWEIGHT

Timeless Pieces from EcoSmart Fire

EcoSmart fire features are synonymous with quality, substance and enduring style and now those same qualities can be applied to our extensive concrete collection.

Incredibly strong yet relatively lightweight, EcoSmart's concrete products incorporate revolutionary Fluid™ Concrete Technology, which is eight times the tensile strength of common Portland concrete. Fluid features a stain and impact-resistant barrier that protects the concrete from environmental weathering – even under extreme conditions and long UV exposure.

Fluid's customised curing process allows each EcoSmart piece to rest and set in quality controlled conditions, producing a consistently beautiful indoor and outdoor collection of designer concrete that last longer than traditional composites.
