

Suggestions

Presentiamo il primo numero di "Suggestions", nuovo magazine Glas Italia che periodicamente raccoglierà immagini provenienti da tutto il mondo dei nostri prodotti, in contesti eterogenei e suggestivi.

Immagini evocative e dalla forte componente emozionale in cui gli arredi e le porte Glas Italia esprimono pienamente le loro qualità estetiche e funzionali, dialogando con spazi e oggetti in ambienti carichi di vissuto o puramente installativi.

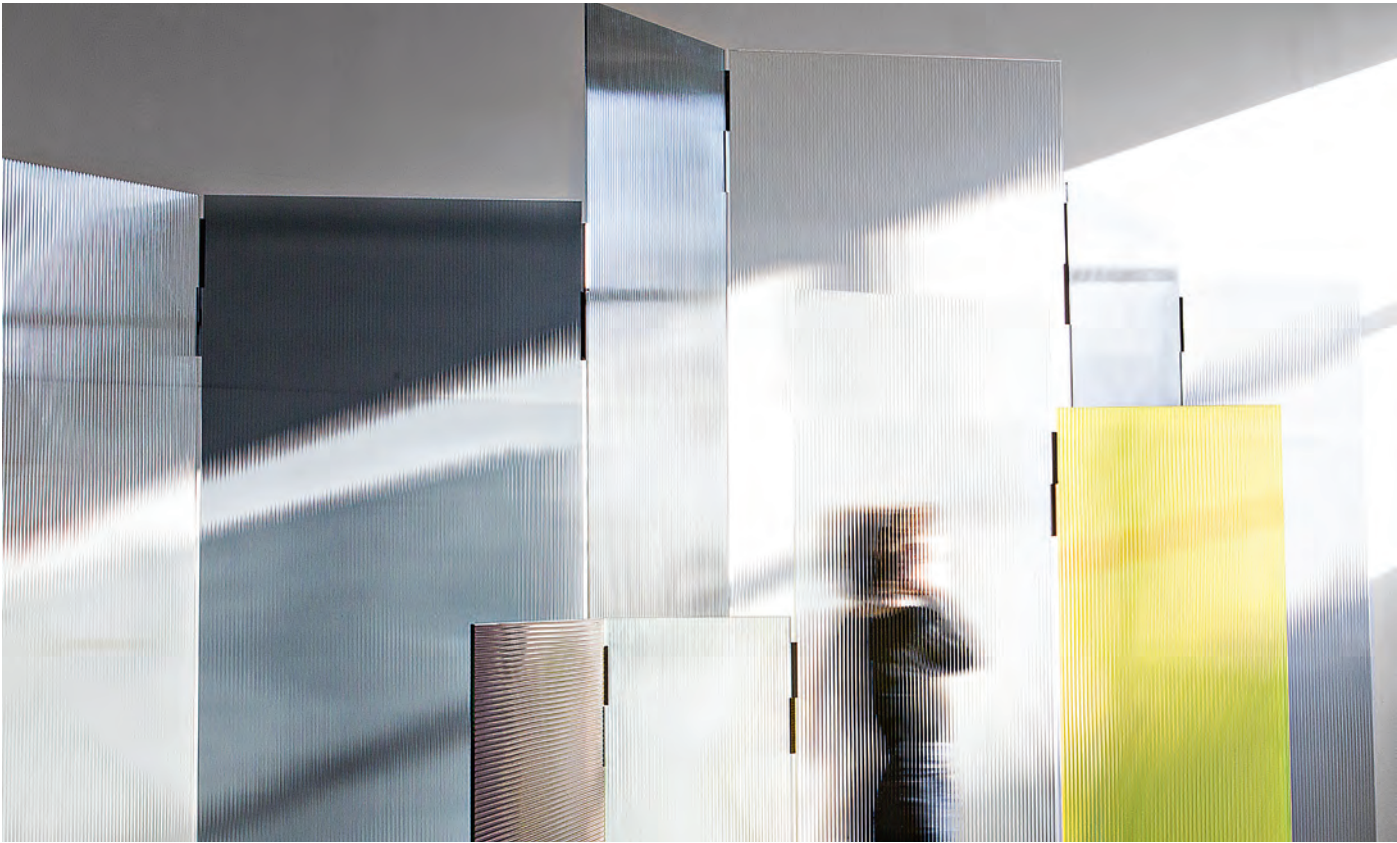

Una serie di pubblicazioni che costituiranno una raccolta inedita, un'antologia di storie che parlano di bellezza e creatività, con i prodotti di Glas Italia sempre protagonisti.

Introducing "Suggestions", the new Glas Italia magazine, periodically presenting photographic images of our products from all over the world, contextualizing our range in situ in broad-ranging and fascinating end user environments.

These evocative and intensely emotional images of Glas Italia furniture and doors display to full effect their aesthetic and functional qualities within defined user environments. Pure statement pieces and those for daily living complimenting each other within context.

A series of publications of an unseen collection, an anthology of stories talking about beauty and creativity, with Glas Italia products in the spotlight and always taking the lead.
